

I am writing to comment why you cannot let LPFM take priority over current FM translator services. This would essentially take my radio station KLOVE, off of the air. KLOVE plays a significant role in my family and community for the positive and encouraging message that it extends. It would be severely detrimental to me and my community if KLOVE were to be displaced by some other broadcaster using LPFM. We need KLOVEs message of hope and positive influence to remain on the airwaves. The services provided by KLOVE are serving the public interest by encouraging and instilling hope in listeners everywhere who may have otherwise turned to drugs or alcohol to deal with hardships. KLOVE ministers to and have saved millions of people from desperation and have brought them into a loving, caring, encouraging relationship with The Lord Jesus Christ. I encourage you to not give priority to LPFM stations over current FM translator stations.
